

Test Your Soil to get the Balance Right

Now is the ideal time to check your soil fertility.

To maximise the productivity of your soils, it is essential to maintain optimum soil fertility levels and apply the correct levels of lime, P and K based on soil analysis result.

Soil Fertility Targets

- Test whole farm
- Grassland soils pH 6.3
- Arable soils pH 6.5 +
- Soil P & K at Index 3

Above: Morton's Soil Sampler covers the whole of N. Ireland
